I understand the terms of the Maricopa-ASU Exploratory Pathway. Specifically I have met with an advisor and understand the following:

- The Exploratory Pathway has been designed to assist me in selecting an ASU Pathway that matches my personal, educational, and career goals.
- The Exploratory Pathway is intended for students that plan to transfer to ASU but have not yet decided on a specific major.
- I will have access to resources and tools at both my community college and ASU to help me in selecting a degree.
- In order to be eligible for the benefits of the MAPP, I must select a MAPP major and sign up for the MAPP. The Exploratory Pathway is not a MAPP.
- That I am subject to all policies, rules, and conditions of each institution in which I am enrolled during any given semester.

**Release of Educational Records:** I authorize Maricopa County Community College District to release my directory and transcript information to Arizona State University for the purpose of providing admission, academic counseling, financial aid, and other services. All educational records are released subject to the confidentiality provisions of appropriate state and federal laws and regulation. All information may be retained in the records of both systems.
